JAPANESE DEMANDS REFUSED.

London, August 18.—A despatch to the Japanese legation from Tokio announces that a reply was received from the commander of the Russian forces at Port Arthur yesterday, refusing either to surrender to the besieging force of Japanese or to send out the non-combatants.

JAPANESE FIRE DID GREAT EXECUTION.

St. Petersburg, August 18.—A later official despatch from Vladivostok shows that every officer on the Russia and Gromoboi was either killed or wounded. Admiral Jessen narrowly escaped the fate of Admiral Witthoft. He was standing on the bridge of the Russia when it was wrecked by a shell. The two Russian cruisers were literally riddled, their guns and engines being partially dismantled. The escape of the Russian cruisers from Admiral Kamimura's fleet of armored cruisers is regarded as a wonderful piece of luck. It is presumed that the Russian ships did not dare to go far north, fearing that some of the vessels of the Port Arthur squadron would break through the straits of Korea.

RENEWED ASSAULTS ON PORT ARTHUR.

Chefoo, August 19.—A battle of huge proportions raged around Port Arthur on August 14th and 15th and was resumed on August 17th. The Japanese are said to have sacrificed 2,000 more men, but gained important advantages in position.

The principal attack was directed against the left wing and resulted in the capture of the Pigeon Bay positions and some of the forts at Liao Shan. At Patun Chang the Japanese hastily mounted guns which did excellent service in aiding the storming of the right wing, where the Japanese are said to have captured two forts of minor value mounting two siege guns and six quick firing guns. The position that the Japanese now occupy on the Liao Ti Shan peninsula is not clear.

Apparently the attack originated in Louis Bay and swept through the Pigeon Bay positions in the peninsula, in doing which the majority of the men of the expedition were sacrificed. On the night of August 15th the battle lulled somewhat, when the Japanese sent a proposal to surrender to General Stoessel, the Russian commander at Port Arthur.

TERMS OF SURRENDER PROPOSED.

The terms he proposed were that the garrison should march out with the honors of war and join Kuropatkin; that all civilians be brought to a place designed by the Japanese; that the Russian warships in the harbor, numbering seven, namely, the battleships Retvizan, Sevastopol, Pobieda, Peresviet, Poltava, and the armored cruiser Bayan, and the protected cruiser Pallada and twelve torpedo boat destroyers and four gunboats, be surrendered to the Japanese.

STOESSEL SWORE FIERCELY.

General Stoessel is said to have received the terms with a burst of wonderful profanity, his habitual taciturnity deserting him. He strode the floor until he became calmer, and then remarked that if the Japanese proposition was a joke, it was in bad taste. He announced that the Japanese commander in front of Port Arthur has been unable to accede to the Russian request for grace in order to permit the removal of non-combatants from that place.

JAPANESE WAR VESSELS ON THE ALERT.

Chefoo, August 19.—Two Japanese torpedo boat destroyers entered the harbor at 5.30 a.m. today. They remained half an hour and then departed. Five other destroyers were reported outside. The object of their visit is unknown.

JAPANESE WILL HOLD WARSHIP.

London, August 19.—Japan has officially notified Great Britain that she does not propose giving up the Russian torpedo boat destroyer Ryshchik, captured in the harbor of Chefoo, on August 12th.

New Use for the Auto

London, Aug. 14.—"General" Booth, who has begun a great evangelistic tour by automobile, is meeting with greater enthusiasm than has been known since John Wesley rode through England on a similar mission. It is likely to be the same during all his journey to the north, for since the King and Queen put their stamp of approval on the social and religious work upon which "General" Booth is engaged, his path has been strewn with roses.

He started on a tour of Penzance a few years ago, but he was actually stoned in those very Cornish villages where, this week, he has been feted, while some people in some of the places were so moved that they even took to him the sick, half convinced that the wonderful old man had the gift of healing.

After spending this week in Devon and Cornwall, the journey north will commence. The "General" is due at Malvern next Wednesday, at the Potteries two days later, and at St. Helens next Saturday.

Utah Visitors

Raymond Chronicle:

The Utah excursionists, the arrival of whom has been looked forward to by all here, pulled in on the special train on Monday, the whole population being on hand to greet them. Three hearty cheers were given as the train reached the platform and then there was a general rush to greet relatives and friends.

The mayor and President Green of the Board of Trade had met the visitors in advance at Stirling and welcomed them officially, preparing them for the warm reception at the Sugar City. After the greetings of relatives, and when each visitor had been presented with a bouquet of Raymond grown flowers by one of the pretty flower girls, a procession up Broadway was headed by the band and the visitors, of whom there were two hundred and twenty-five, were introduced to a hundred Raymond homes to rest after their long journey in anticipation of a further reception in their honor that evening.

Wireless Telegraphy at the Coast

Victoria, Aug. 15.—H. A. Yarnell, of the Pacific Wireless Telegraph company, Port Townsend, is in the city actively engaged with an assistant in installing on the Hotel Driard the apparatus for the new station to be established here. In from four to six weeks this, Victoria's latest system of communication with the outside world will be doing business.

The feasibility of sending and receiving wireless messages from the top of the Driard has been tested, and since Mr. Yarnell's arrival he has corresponded with other stations of the system now working, namely at Port Townsend, Friday Harbor, San Juan, Fort Casey and on the United States cutter Grant.

The experiments having been very successful, Mr. Yarnell is now advancing the work of installation with all possible dispatch. One of the front apartments of the Driard is to be given over to the business. It is to be attractively and comfortably fitted for the purpose. An expert operator named Wilson, of Seattle, is to have charge of the office, and when the station has been opened to the public the company will be prepared to accept all kinds of business.

New Lake in the Rockies

Free Press:

Mr. M. Bell Smith, B.C.A. arrived this morning on the Imperial Limited, on his way east after his annual sketching tour of a month in the Rockies.

Mr. Bell Smith intends visiting his son-to-day, the Rev. M. Bell Smith, of Teulon, where he will give a chalk talk in aid of his son's church. He was accompanied during his tour by two very noted Alpine climbers, Edward Whymper, Prof. Chas. E. Fay, of Tufts College, Mass., and Walter Dwight Wilcox, the author of the "Rockies of Canada." During their tour these famous gentlemen discovered the practically unknown lake, McArthur, which was named after the first surveyor. It is situated about 12 miles from Hector, on the main line of the C.P.R. Its altitude is 8,000 feet above the timber line. During their visit they saw a number of icebergs floating in the lake, the result of the breaking up of a huge glacier. A very peculiar feature of this lake is that it has no visible outlet, but upon investigating they discovered a little whirlpool from which they concluded that there must be a subterranean outlet. An-

other peculiar characteristic about this lake is the sound which was heard from the whirlpool, resembling that caused by the rolling of pebbles down a pipe. Mr. Bell Smith is obliged to go east after spending a very pleasant trip, getting materials for some paintings as he is arranging the art exhibit at the Toronto Industrial Fair. He has a very fine collection of paintings at the St. Louis fair, one of which is the admiration of all visitors, entitled "The Fraser Canyon."

Attacks on Mormons

Raymond, Alta., Aug. 12th.—The eastern papers containing the attacks made by Miss Phelps, of St. Catharines, on the Mormons of Alberta, were received here just as an excursion from Utah brought over 200 prospective investors and settlers in Southern Alberta. The same evening a great reception was given in the Mormon meeting house to the visitors. Nearly all the gentle population attended and on the platform sat Rev. Charles McKillop, Presbyterian minister of the gentle church in the district. Mr. McKillop has been laboring in this field for 19 years and is well known throughout Canada. He has just been chosen moderator of the Southern Alberta presbytery. He was called on for a speech, and he said in part:

"As a citizen of Raymond I am pleased to add to the words of welcome extended to you. You will not find here fine buildings nor palatial homes, but many warm hearts. While there can be no contest here this evening between Americans and Canadians, I may say that I listened here the other day to the eloquent address delivered by Mr. B. S. Young, one of the pioneers who founded Utah in tears and in blood. I appreciated that this was a hardy, a virtuous and an industrious people. I am sure Utah does not begrudge us the men who have come from there to help us build up this country, and we are pleased to have them. We admire the United States as a nation of free people; we are proud to think we have here even greater civil and religious liberty. We persecute no one here for believing what they think right. My blood boiled within me the other day as the story was told how these people were persecuted for what they believed to be right. I would impress upon all that we have good laws and that they are well observed."

These utterances are significant in view of the fact that last winter Rev. Mr. McQueen, also a Presbyterian minister stationed at Edmonton, also attacked the Mormons of Alberta. It was stated that Rev. Mr. McQueen's course was not then approved by his colleagues of the ministry, and your correspondent is assured that Dr. Herdman, superintendent of Presbyterian missions in Western Canada, who went to Utah to study the Mormons, favors a policy of conciliation. Dr. Herdman was recently in Raymond, the guest of Rev. Mr. McKillop.

The Raymond Chronicle, owned by Gentiles, also takes up the attacks of Miss Phelps, and in its next issue will say: "The Chronicle has taken upon itself to write to Miss Phelps for more information, about her speech than the press reports of it give. We have asked her to inform us to what are the polygamists of Alberta, about whom she is so well posted. We have agreed to publish their names and addresses if she will furnish them. We have also asked for a list of those cases against polygamists in which the women perjured themselves, and we await her answer with a great deal of interest. So far as anyone in the district knows, so far as any court records go to show, there has never yet been a charge of polygamy laid against any Mormon in Alberta, and as a consequence no women have been in position to perjure themselves or deny the father of their children. Miss Phelps must have a peculiar idea of the criminal procedure of Alberta to think that there are known cases of false testimony in which the one breaking the oath has not been arrested and sentenced. And this is not a lie. And it is not a lie when we say that there has not been a polygamous marriage in the Mormon church in Alberta. Neither is it a lie when we say that Miss Phelps does not know what she is talking about, when she slanders her sisters in this district."

The whole subject is constantly discussed by the gentle population of Southern Alberta, and the appearances are that the Mounted Police would be very glad to prosecute if they could obtain evidence.

Canada's Attitude to Sports

The New York Evening Post has the following article on the attitude of Canadians towards out of door sports:

We have the Toronto Globe's authority for the statement that when the Canadian oarsman, Lou Scholes, returned from England to his native city 80,000 persons turned out to cheer him for his achievement in winning the Diamond Sculls at the Henley Royal Regatta. An event like this, and the hardly credible stories of the tremendous crowds turned out to watch football matches in England, give us a line on the real fervid love of the Englishmen for sport. When New York turns out 30,000 to watch a football game between Yale and Princeton we hear talk about our "crazes" for athletics. But we are the merest stay-at-homes and sedentary desk slaves in comparison with our Canadian neighbors.

Try to imagine a seething, cheering mass of people crowding West street and putting trucks and horse cars out of commission while a White Star liner is docking with the successful American college athletes aboard. The Yale and Harvard men who outjumped and out-sprinted the Oxford and Cambridge athletes will be honored if they find a half dozen reporters and a bevy of cabbies to extend a welcome back to America. We do not mean to say that the college athletes have done so difficult a thing for their country as Lou Scholes did for Canada in winning the grand prize in the aquatic world that has been a subject of contest since 1854.

But they certainly manage these things differently in Canada, as the acting mayor and the council of Toronto, the fire department and 80,000 cheering citizens can attest. Take extracts from the Globe's enthusiastic account as an illustration: "As the big steamer neared the dock the harbor and shore presented a thrilling scene. . . . The shore outside the dock gates was black with an exultant cheering crowd. All eyes were centred on the champion standing alone on the end of the bridge, hat in hand, bowing and smiling, and with an honest, boyish bashfulness depicted on his bronzed and manly face, and in his mein as he shifted from one foot to the other. The little crowd on the wharf, for very few people had been allowed through the gates, cheered heartily as the steamer moved to its berth and the Highlanders' band struck up "Home, Sweet Home," and afterwards, the "Maple Leaf."

"Mr. Scholes was kept on the bridge till the other passengers disembarked. Then he was allowed to come down, and as he set foot in his native city was heartily welcomed by Acting Mayor Ramsden, Comptroller Hubbard and others." Again, as viewed from the deck of the incoming steamer: "Then the band struck up 'See, the Conquering Hero Comes,' followed appropriately by 'Home, Sweet Home,' the pauses between the tunes being punctuated by renewed whistling and gun fire and the roar of cheers that reverberated across the water from thousands on the breakwater, the wharves on the Island shore, and the decks of the professional fleet."

In presenting to the oarsman a silver cabinet on behalf of the city of Toronto, the Acting mayor added his poem to the general chorus of worshipful praise that had been sung from the moment the young man came within the sound of land until he found himself surrounded by a mass of 10,000 people in one of the city's parks. In the past, Toronto's sons have by their skill, pluck and endurance in rowing and in sculling contests, both at home and abroad, secured honors for their native city, and this, your last achievement, adds another, and perhaps the most important, to the long roll of aquatic victories now standing to their credit; and you may with confidence be assured that the signal triumph you now bring is most heartily and thoroughly appreciated by all classes of your fellow citizens." The Canadians must indeed be the direct descendants of the Greeks.

War Notes

Paris, August 16th.—The Journal's St. Petersburg correspondent learns that the Japanese now hold all the positions which dominate Port Arthur. In the dark hours of the early morning great siege guns of the Japanese opened on all the hills around the stronghold and a rain of fire fell on the Russian positions. The town, dock yards and harbor were full of the bursting Japanese shells. Fires were kindled thereby and flashes of the Russian guns in reply to the bombardment made the space within the semi circle of the Japanese lines a veritable seething cauldron of flame and smoke, as seen from the surrounding hills.

It is stated that on August 10 the Japanese had before Port Arthur a hundred thousand men and four hundred and fifty guns, of which fifty are howitzers.

Chefoo, August 16th.—Later details of the naval battle of August 10 reaching here show that the Russian battleship Czarevitch made a remarkable struggle. When the battle opened the fleet were on parallel lines in the vicinity of Round Island. The cruisers and torpedo boat destroyers on both sides were ordered out of range. When the fight had been under way for some time the cruisers and smaller craft became engaged. Finally the Czarevitch was surrounded by four battleships and two cruisers. She endured an hour of terrible fighting. The shell which killed Admiral Witthoff rebounded from the turret.

Chefoo, August 16th.—The Russian cruiser Novik, which put into Tsing Tau after the battle of August 10 off Port Arthur, and which coasted there, put to sea within twenty-four hours, and was sunk forty miles from Tsing Tau.

Saeco, August 16th.—Six hundred survivors of the Russian cruiser Rurik have arrived here. This is a Japanese naval base.

St. Petersburg, August 16th.—The expectation here is that Port Arthur will fall at any moment. Especial significance is attached to the fact that Lieutenant General Stessel's wife and family went to Chefoo on board the torpedo boat destroyer Ryshchik.

Chefoo, August 16th.—The Russians at Port Arthur are down hearted. The men who came here on the junk declare that the commander of the Japanese fleet before Port Arthur informed the Russian commander of the place that if the warships which returned to Port Arthur after the sortie of August 10th were sunk by the Russians, the Japanese would shell the town with howitzers.

Liao Yang, Aug. 13.—All is quiet on the western front. Apparently the Japanese are not attempting any further advance on Liao Yang, but are turning all their attention to Port Arthur, concerning which there is considerable uneasiness here. Reports are coming in of several hand attacks on Port Arthur during the last few days. It was stated on Aug. 10 that the Japanese had before Port Arthur 100,000 men and 450 guns, of which 50 are howitzers.

Whether Port Arthur stands or falls it will cost the Japanese enormously. It is estimated that they will lose 30,000 men if they take the fortress, but if they do take it, it will be serious for the Russian army, as it will result in the releasing of a majority of the Japanese southern force for an advance on Liao Yang.

Russian advices from Port Arthur say that the garrison is ready to be annihilated before surrendering.

London, Aug. 15th.—The Chelco correspondent of the Daily Mail under date of August 13 says: "Three Russian torpedo boat destroyers left Tsing Chou last night and returned there this morning, thus evading the 24 hour limit. The Viceroy refuses to accept the resignation of Admiral Sah over the Ryshchik affair."

The Pekin correspondent of the Times says that the escape of the Russian men of war to Tsing Chou causes no surprise in the Chinese capital. It has long been believed rightly or wrongly, he says, that a secret understanding existed between Russia and Germany providing for this contingency.

Tokyo, August 16th.—It is believed here that the Russians will not be able to repair the five battleships reported by Admiral Togo to have been damaged in the recent sea fighting at Port Arthur. The Japanese land batteries now commanding the entrance to the

harbor could render this work impossible.

Before the Russian fleet emerged from Port Arthur on August 10th, the Japanese batteries could reach the warships with their shells, and the docks were exposed to a fire the severity of which was increasing constantly. It is doubted if the ships will be able to go about without undergoing repairs, and it is reported that the Russians themselves will destroy them before Port Arthur falls.

Forger Gets in His Work

Free Press:

Inquiry among Winnipeg merchants brought to light two more worthless cheques that were passed by the young English forger, an account of whose depredations appears in another page. Besides the Winnipeg Clothing House, two other firms, the Slater Shoe company and Rannard & Chapman were victimized, and each to the extent of \$98.25. The cheque is the official cheque issued by Robinson & Elza, railroad contractors, and it is signed for them by R. F. Smith, paymaster, and the numbers of the cheques are up in the 700's so that it has evidently been torn from the book of the above company's cheque book, and then the other data filled in. Rannard & Chapman sold a brown leather valise to the smooth-tongued stranger and accepted his cheque for \$98.25 in payment and gave him all but \$24 in change. This they told the young man they would pay him between 9 and 10 in the evening as they did not wish to get short of change. He returned about 7 and they told him as before to return after nine. But he went out on the 8 o'clock train and so left so much behind him. The cheque was made out in favor of George Blackwood or bearer and purporting to be in full payment for work done during June and July. The cheque given in at the Slater Shoe store was in favor of George Elisel. At this store he purchased a five dollar pair of shoes.

It transpires that George (whatever his name is) was accompanied by two young men about town on Saturday and that he gave each one \$10 hush money. The manager of the Slater Shoe company found this out and the money is now in the hands of the police to the credit of his store. A description of the forger was sent to Fort William and a return wire says that a man answering the description got on the Ss. Athabasca at Fort William, and he will be headed off at the Soo and brought back to the city. As far as can be learned, no other merchants have been victimized.

Hon. Jas. Sutherland is Still Very ill and May Resign his Portfolio in the Dominion Cabinet

Bulletin Special Dispatch. Woodstock, Aug. 18th.—The latest advices from the Danesville Sanitarium, New York, indicates that there is no material improvement in the condition of the health of Hon. James Sutherland and he is expected home shortly.

Among his friends here there is the feeling that he is a very ill man and that he is a very ill man.

There are unfounded rumors here that he may resign in the Cabinet and will also resign in a short time as a member for North Oxford.

CROP FAILURE

REPORTS

Are Discredited. There is Scarcely any Rust in Manitoba and Crop Prospects are Good

Bulletin Special Dispatch. Montreal, August 18.—Alarmist reports regarding crop prospects in the west are not confirmed by advices received here. F. W. Thompson, of the Ogilvie Milling company, speaking of the situation, stated that one report said that the weather was cool, but he had received nothing that would justify any uneasiness. "In view of heavy crop damage from rust across the line," said Thompson, "I think Manitoba is doing surprisingly well." Experts who were sent south to investigate reports of damage in the states found that the effects of rust were serious. Since then they have been touring Manitoba and while it is true that rust has appeared in some places, the reports in regard to rust are greatly exaggerated.

Bulletin Special Dispatch. Quebec, August 18th.—Lord Minto will leave Canada with his family October 21st. He will say farewell to Quebec next Monday when he will proceed to Ottawa and will later leave for his trip west.

After visiting Victoria and Vancouver he will visit Regina and Winnipeg. He will bid adieu to Ottawa October 20 and the following day will board the Allan steamer, Montreal, on his way to England.

Yesterday evening he was tendered a farewell dinner in the Garrison Club. To-night he will give a state ball at the Vice-Royal quarters in the Citadel.

GERMAN DELEGATES

Dr. Fraugott, Dr. Sterneberg, and Dr. Kuffer, the delegates from the German government to inspect the Canadian West, visited southern Alberta points yesterday. They intended visiting Edmonton and district, but a change in the arrangements may only allow of their visit as far north as Red Deer. If possible they will visit Northern Alberta.

It is said that this trio of government officers are making the tour of the west to ascertain the real condition of the German colonies scattered throughout the country, in order that the German government may be in a position to discuss the advisability

of ameliorating the restrictions against immigration to this continent. The delegates are enjoying their visit very greatly and will doubtless return favorable reports.

OLD TIMER'S FUNERAL

The funeral of the late John Thurston is being held this afternoon at three o'clock from his late residence, the Jasper House. The Edmonton Old Timers are attending the funeral, which takes place to the Edmonton cemetery.

Mr. Thurston is one of Edmonton's oldest old timers. A graduate of Kingston military school, he came west to the Red River at the time of Riel's rebellion in '69, a member of

B battery of artillery. Coming to Edmonton about '78, he and Harry Goodridge, at present of the Great West Implement company, Edmonton, went into farming together, west of Edmonton. Mr. Thurston sold out his ranching interests about '83 and he and the late Mr. Jas. Goodridge went into the hotel business. Mr. Thurston has been connected with the hotel ever since.

WINNIPEG TEAMSTER

KILLED

Was Driving Ice Wagon When it Broke Down Crushing out his Life

Bulletin Special Dispatch.
Winnipeg, August 18.—Wm. Farquharson, aged 26, was killed today by the breaking of the front axle of the ice wagon he was driving. Three tons of ice and the box of the wagon practically crushed the life out of him, as he died within half an hour of the accident. A funeral cortege was coming along behind the wagon on the Assiniboine main street bridge, where the smash occurred, and the clergyman and undertaker were called away from the procession to assist the sufferer. He came from Aberdeen, Scotland, last spring.

BACK FROM LLOYDMINSTER

Jas. Ross returned to the city last night from Lloydminster. He went by way of Whitford and Vermilion, returning by way of Fort Pitt, Onion Lake and Saddle Lake.

Contractor Robertson is at Lloydminster, ready to commence grading operations for the Canadian Northern. There is considerable breaking done at the colony, much of the work having been done by halfbreeds from Whitford and vicinity. There is not a great deal of crop in the immediate vicinity of the colony, but the farmers back from Lloydminster have more land under cultivation. There are a large number of new buildings erected and in course of erection at Lloydminster.

Hundred Thousand Men May

New York, August 15th.—To-day begins the third and possibly the decisive week in the controversy which threatens to put a stop to building operations in this city for months to come. It is declared by the leaders of both sides that everything points to a fight to a finish between the labor unions and the building trades employers associations over the question of the open shops. There are now about 50,000 men out of work including skilled mechanics and laborers has the result of the present difficulty.

There are about 50,000 skilled workmen in the building trades in the city who would be affected by a general strike or lockout. In addition to these it is estimated that 45,000 helpers and laborers and 15,000 employees of material men would be thrown out of work, making up a total of 110,000. Their loss in wages would amount in round figures to \$10,000,000 a month in addition to which the capital of the thousand members of the building trades would be tied up.

The employers declare they are determined that the arbitration agreement adopted a year ago shall be respected with the open shop policy as the alternative.

Drowning Accident

Steele, Man., August 16th.—A sad drowning accident occurred yesterday afternoon about 4 o'clock, in the Assiniboine river, near George Hopkins' farm, at Mifflin. Three young men, E. Thompson, G. Gaskel and Alan Lindsay went to the river to bathe. Lindsay, not being a good swimmer, told the others he would not go in. Apparently, however, he changed his mind after the others had left for when they had gone down stream some distance they heard a call and on looking around observed Lindsay struggling in the water some distance down the stream from where they had left him. The unfortunate man went down before they could get near him. The body had not been recovered at eight o'clock this morning.

The current is very strong in the river at this point and he may have stunned himself diving or taken cramps. The deceased was well known in the district, having worked with Turnbull's threshing outfit last season and had just arrived to take a place on Hopkins' outfit this year. It is understood that he has a homestead in the Swan River district. His mother resides at Trinity, Ont., and the sad news was wired her last evening. Quite a number of Steele people went down this morning to assist in recovering the body.

Carrot River Country

Melfort Moon:

There are those who have been acquainted with the older settled portions of the Carrot River valley for many years who have no conception of the extent and resources of this rich and as yet undeveloped stretch of country.

The Carrot river from which it derives its name, has its source in the vicinity of township 41, range 27, almost directly south of Prince Albert and not many miles east of the south branch of the Saskatchewan. From its source to where it empties into the Saskatchewan north of the province of Manitoba is a distance of about 300 miles. The Carrot river is commercially navigable for over one hundred miles of its entire length, from there

that portion of the river as far as Waterhen lake might be utilized in the same manner as the Saskatchewan often is, for floating supplies down on small rafts and flat bottom boats.

A few years ago not many outside of a few traders would have contradicted the statement that only a small portion of the country was suitable for settlement, as a very small portion was surveyed, and little was known by even the residents, of the unsurveyed parts. About four years ago when the line of the Canadian Northern Railway was surveyed through, and the extent and fertility of the country along the line east of Melfort became better known, survey parties were sent in by the Dominion government and large tracts of land opened up for settlement.

Several parties of Dominion land surveyors are working in the district this season, but although they are working back some distance from the line of railway, they still find good country and squatters keep going in beyond the surveyed portion, and those on the fringe of the settled portion, still bring in reports of good country beyond, so the knowledge of our resources, and the extent of country suitable for settlement is extending each season and judging from past experience and present reports the end is not yet.

It is very hard to get at the increase in population in the last four years, but an idea of it may be obtained from the following carefully estimated increase in the number of general, hardware, drug and furniture stores doing business here now and four years ago. At that time in the Carrot river valley there were only six small general stores, with stocks of from one hundred to perhaps a thousand dollars each, while at the present time there are over thirty, very few of which carry stocks of less than \$1,000, and reaching from that up to over \$20,000, and some of which are doing a business of \$25,000 a year.

This is a record which can be surpassed by few districts in the Territories, and we believe by none in which the railway for one hundred miles is still being operated by those in charge of the construction. All of which points to the fact that the Carrot river valley is making giant strides in the direction of becoming one of the potent factors which will assist in shaping the destiny of the West. With a railway to Hudson's Bay, which this district will have tapping it in the near future, and the large amount of arable land fit for settlement, there is no reason why the Carrot river valley cannot take its place in the front rank of the progressive districts in the West.

Fires Still Burning

Blairmore Times:

Forest fires are still raging near here and although the towns in the Pass are comparatively safe Lillo, on Gold creek, is seriously threatened. Two large fires are eating their way through the heavy timber, both headed towards Lillo, one coming from the southwest and the other from the south, both of which have gained great headway. The fight against the fires on the South Fork, which are sweeping the McLaren timber limits, has been given up and the fire fighters are devoting their energies towards trying to save the limits near the Crow's Nest Lakes. A large fire is burning between here and Coleman on the high ridges north of the railway, but outside of destroying the timber threatens no damage. Another big fire is burning on Willoughby Ridge and Byron Creek. In fact, bush fires are burning in every direction and nothing but rain now appears to be of any use to put them out.

BY-LAW NO. 278

A By-Law to provide for the raising of \$8,000 to meet the portion of the costs to be borne by the Municipality at large of an easement extension of Jasper Avenue.

WHEREAS the Municipal Council of the Town of Edmonton, deem it expedient to extend Jasper Avenue eastward from a point commencing at Lot Thirty Eight (38) at Block Two (2) in River Lot Twelve (12) of the Edmonton Settlement and running to Lot Six (6) in Block Four (4) in River Lot Fourteen (14) of the said Settlement.

AND WHEREAS the Municipal Council deem it expedient that the said work should be undertaken as a Local Improvement and that the costs thereof beyond the sum of \$8,000.00 should be raised by Special Percentage Assessment and that the cost thereof to the extent of the said sum of \$8,000.00 should be borne by the Municipality at large.

AND WHEREAS if the said work is to be undertaken by the Municipal Council, as aforesaid, it is necessary that authority be obtained to raise the said sum of \$8,000 by the issue of debentures for a sum not exceeding that amount.

AND WHEREAS it is expedient that the amount to be borrowed for the purpose aforesaid if such authority be accorded, should be payable during the period of twenty years from the date of the debentures to be issued therefor, and should bear interest at a rate not exceeding five per cent. per annum and either (1) that the same should be repayable during the period of twenty years; or (2) that the principal shall be repayable at the end of twenty years from the said date (provision being made for the payment thereof by the creation of an equal annual sinking fund) and the interest annually.

AND WHEREAS the amount of the whole rateable property in the Municipality according to the last revised assessment roll, is \$5,598,748.

AND WHEREAS the total amount of the general debt of the Municipality exclusive of local improvement debt, secured by special assessment, and outstanding due for the current expenses of the year is \$508,237.39.

AND WHEREAS it is expedient that this by-law should take effect on the 15th day of September next.

NOW THEREFORE the Municipal Council of the Town of Edmonton, duly assembled enact as follows:—

1. The Mayor and Secretary Treasurer of the Town of Edmonton are hereby authorized and empowered to borrow for the purpose aforesaid, on behalf of the Municipality a sum or sums not exceeding in the aggregate the sum of \$8,000 and to issue one or more debentures of the said Municipality for such sum or sums so borrowed.

2. The said indebtedness shall be paid during a period of twenty years from the date of issue of such debentures or debentures, and shall bear interest at a rate not exceeding five per cent. per annum, and shall, as the Council shall deem expedient, be repayable, either (1) in such manner that each instalment of principal and interest shall be equal in each year of the said period of twenty years; or (2) in such manner that the principal shall be paid at the end of the said period of twenty years (an equal annual sum by way of sinking fund being raised annually during the said period sufficient to meet the principal at maturity) and the interest thereon, yearly.

3. During the currency of the said indebtedness there shall be raised annually by special general rate on all rateable property in the Municipality at the same time and in the same manner as the ordinary general municipal taxes and a sufficient sum to meet the amount of the annual instalment of principal and interest, or the amount of the equal annual sinking fund and the annual interest, as the case may be, payable in each year in respect of the said indebtedness.

4. This by-law shall take effect on the 15th day of September next.

5. The votes of the electors for and against this by-law shall be taken at the Council Chamber in the Fire Hall in the Town of Edmonton, on the 12th day of September, 1904, between the hours of 9 a.m. and 5 p.m.

6. George Johnston Kinnaid is hereby appointed Returning Officer, and Kenneth Collins, Deputy Returning Officer to take the votes at the time and place aforesaid.

7. The said Council Chamber at the hour of 5.30 p.m. of the said 12th day of September, 1904, is hereby fixed as the place and time where and when the returning officer shall sum up the number of votes given for or against this by-law.

PASSED provisionally in Council, at Edmonton this 16th day of August A. D., 1904.

WM. SHORT, Mayor.
GEO. J. KINNAID,
Secretary-Treasurer.

PUBLIC NOTICE is hereby given that the foregoing is a true copy of a proposed by-law which will be taken into consideration by the Municipal Council of the Town of Edmonton, before being voted on by the electors; that the date of the first publication of the said proposed by-law is the 19th day of August, 1904, in the "Edmonton Bulletin," a newspaper published in the town of Edmonton, and that the votes of the electors shall be taken upon the said proposed by-law on Monday, the 12th day of September, 1904, between the hours of 9 a.m. and 5 p.m. at the Council Chamber, Edmonton.

GEO. J. KINNAID,
Secretary-Treasurer.

The Canadian Northwest
Homestead Regulations

Any even numbered section of Dominion Lands in Manitoba or the Northwest Territories, excepting 8 and 16, which has not been homesteaded, or reserved to provide wood lots for settlers, or for other purposes, may be homesteaded upon by any person who is the sole head of a family, or any male over 18 years of age to the extent of one quarter section, of 160 acres, more or less.

ENTRY.—Entry may be made per the district in which the land to be taken is situate, or, if the homesteader desires, he may, on application to the Minister of the Interior, Ottawa, the Commissioner of Immigration, Winnipeg, or the local agent for the district in which the land is situate, receive authority for some one to make entry for him. A fee of \$10.00 is charged for a homestead entry.

HOMESTEAD DUTIES.—A settler who has been granted an entry for a homestead is required by the provisions of the Dominion Lands Act and the amendments thereto, to perform the conditions connected therewith, under one of the following upon cultivation of the land in each year during the term of three plans:

(1) At least six months' residence years.
(2) If the father (or mother, if the father is deceased) of any person who is eligible to make a homestead entry under the provisions of this Act, reside upon a farm in the vicinity of the land entered for by such person as a homestead, the requirements of the Act of 1902 superseding of 1903 staying patent, may be satisfied by such person residing with the father or mother.

(3) If a settler has obtained a patent for his homestead, or a certificate for the issue of such patent, countersigned in the manner prescribed by this Act, and has obtained entry for a second homestead, the requirements of this Act as to residence prior to obtaining patent may be satisfied by residence upon the first homestead, if the second homestead is in the vicinity of the first homestead.

(4) If the settler has his permanent residence upon farming land owned by him in the vicinity of his homestead, the requirements of this Act as to residence may be satisfied by residence upon said land.

The term "vicinity" used above is meant to indicate the same township or an adjoining or cornering township.

A settler who avails himself of the provisions of Clauses 2, 3, or 4, must or substitute 20 head of stock, with cultivate 30 acres of his homestead, buildings for their accommodation, and have besides 30 acres sub-tenanted.

Every homesteader who fails to comply with the requirements of the homestead law is liable to have his entry cancelled, and the land may be again thrown open for entry.

Application for patent should be made at the end of three years, before the local agent, sub-agent, or Homestead Inspector. Before making application for patent the settler must give six months' notice in writing to the Commissioner of Dominion Lands, at Ottawa, of his intention to do so.

Information.—Newly arrived immigrants will receive at the Immigration Office, in Winnipeg, or at any Dominion Lands Office, in Manitoba or the Northwest Territories, information as to the lands that are open for entry, and from the officers in charge, free of expense, advice and assistance in securing land to suit them. Full information respecting the land, timber, coal and mineral laws, as well as respecting Dominion Lands in the Railway Belt in British Columbia, may be obtained upon application to the Secretary of the Department of the Interior, Ottawa, the Commissioner of Immigration, Winnipeg, Manitoba, or to any of the Dominion Lands Agents in Manitoba or the Northwest Territories.

JAMES A. SMART,

Deputy Minister of the Interior.
N.B.—In addition to Free Grant Lands to which the regulations above stated refer, thousands of acres of most desirable lands are available for lease or purchase from railroad and other corporations and private firms in Western Canada.

SPORTS

GOOD LACROSSE

MATCH

In Strathcona Yesterday Evening.
Wins out in a One Sided Game

The rain storm that came up just about six o'clock last evening kept a large number of Edmonton lacrosse enthusiasts who would otherwise have witnessed the game in Strathcona, at home. Not a drop of rain fell across the river and the match, Edmonton vs. Strathcona, was played under first-class conditions. There was only a small attendance at the match.

Both teams got quickly to work and Edmonton, over anxious to rush matters from the start and pile up a big score left their goal unguarded with the result that the home team scored. Only one other time during the whole course of the game did the ball come any way near the Edmonton nets. This was later in the game when from a shot by Campbell the ball hit the top of the Edmonton nets. The umpire gave the goal and as Edmonton had scored twice previously, this brought the score a tie—2 to 2. From this on, and in fact during the whole game Strathcona played straight defence and whenever they attempted a run found themselves overpowered and outplayed by the Edmonton defence who played splendid lacrosse throughout. During almost the entire last half of the game the playing was combined to Strathcona territory, the ball scarcely passing beyond centre. The game was not in doubt for a minute and the Edmonton team showed pretty combination work. The long throwing of the Strathcona team, and the defence game they put up kept the score down.

The game was free from all disputes and was not unnecessarily rough. All the Edmonton boys played good ball, the combination work of Stewart, Morris, McNe, Nutt and Thomson being a specialty.

The game ended in a victory for Edmonton by a score of three to two. Dettson field captained the Edmonton twelve. R. Dewar gave good satisfaction as referee.

The line-up of the teams was:—

Edmonton		Strathcona	
Harper	Goal.	Graham	
Pearen	Point.	Renton	
Banford	Cover Point.	Leask	
Miner	Defence Field	Richards	
Mavey		Campbell	
Morris		Grundy	
Thom	Centre.	Brown	
McNe	Home Field.	Edin	
Watkins		McMinnick	
Nutt		Graham	
Brant	Outside Home.	Cartwright	
Thomson	Inside Home.	Cashman	

BASEBALL

Edmonton and Fort Saskatchewan junior baseball teams played a friendly game on the Hudson Bay grounds yesterday evening. The rain storm kept many away from the game that would otherwise have been present. Five innings were played and each side scored five runs. Good ball was played. The line-up of the teams was:—

Edmonton		Fort Saskatchewan	
Parney	Catcher	Dimond	
Walker	Pitcher	Simons	
Magill	First Base	Daniel	
Clark	Second Base	Turner	
Maloney	Third Base	Croswell	
Spence	Short Stop	Pergerson	
Rattigan	Left Field	Dave	
Levee	Centre Field	Butter	
Haskie	Right Field	Dewar	

Umpire Maloney gave good satisfaction. A return match will likely be played shortly.
